'einstein made the law of relativity famous with

May 29th, 2020 - einstein made the law of relativity famous with the formula $e = mc^2$ e energy m mass in grams c velocity of light in centimeters per second this simply means a small amount of mass can produce a great amount of energy nuclear fusion is an example einstein said light is the only thing in the universe that never changes'

'time dilation

june 6th, 2020 - special relativity indicates that for an observer in an inertial frame of reference a clock that is moving relative to them will be

measured to tick slower than a clock that is at rest in their frame of reference this case is sometimes called special relativistic time dilation the faster the relative velocity the greater the time dilation between one another with the rate of time
